Onboarding and Offboarding Solutions

Strong onboarding and offboarding programs are critical to any organization's success. They help employers gain a competitive edge by boosting employee retention rates, avoiding steep penalties and fines by ensuring compliance, and reducing risk of lawsuits. However, developing successful onboarding and offboarding processes can also be time-consuming. Streamline and strengthen your onboarding and offboarding programs with MP's People Cloud Onboard & Develop.

Onboarding Features Include:

Onboarding Self-Service
New hires can enter information directly into isolved

Engaging Experiences for New Hires
Provides a welcoming environment for new hires

Customizable Onboarding Tools
Customize the tools to collect as little or as much information as you want

Documentation Capture and Management
Seamlessly manage all new hire documentation, including I-9 employment verification and e-Verify

Mobile Friendly
The entire onboarding process can be managed with full functionality accessible from anywhere

Easy to Navigate
Designed with a simple user interface for productivity and ease of use

MP's People Cloud Onboard & Develop makes onboarding and offboarding are more manageable with:

- **Built-in I-9 Tool:** Automate forms and processes to save hours of employee labor and time.
- **Workflow Automation:** Implement, track, and store all forms and documents (including federal and state tax forms) to reduce workload and eliminate costly errors.
- **Streamline Processes:** Automated assignment tracking, distribution and returns of equipment, systems access and logins, legal and HR documentation, and task completion to keep your business running faster.
- **Wizards:** Customize onboarding templates for a variety of employee groups.
- **Permissions:** Control and assign by role, location, and employee.
- **Employee Categories:** Determine which are required or optional.
- **Company Communications:** Modify company messages or use defaults.
